Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group 1, claims 44-70, drawn to an electronic voting system, a printed ballot for an electronic voting system, and a method of operating an electronic voting system.
- b. Group 2, claims 71 and 85, drawn to a method of determining a commitment value from an electronic data value.
- c. Group 3, claims 72-75, drawn to a method of calculating a correctness value of encrypted messages.
- d. Group 4, claims 76-78, drawn to a method of shuffling and decrypting encrypted electronic data.
- e. Group 5, claim 79, drawn to a method of providing data for verifying that messages of a set of messages are authentic.
- f. Group 6, claims 80-84, drawn to a method for verifying data using a homomorphic verification system without revealing the origin of the data.

The inventions listed as Groups 1-6 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group 1 concerns the concept of providing a secure

Art Unit: 2887

electronic voting system by providing an electronic and a paper ballot. Groups 2-6 deal with different cryptographic concepts generally and do not mention voting or ballots, nor deal with elections specifically.

A telephone call was made to applicant's attorney Bruce Itchkawitz on March 23, 2010 to request an oral election to the above restriction requirement, but applicant's attorney indicated that applicant had declined to elect a single invention at that time.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
